

Deepen it – Subtraction of 14

Can you solve this in different way?

Find the missing digits:

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$

$$14 - \square = 8$$

$$1\square - 9 = 5$$

$$\square = 1\square - \square$$

$$14 - 1\square = \square$$
