

	<p>Swindon Music Service. The Swindon Music service was formed to facilitate all those interested parties in music education to come together to offer a broad and balanced approach. There are links to home learning and a link to Swindon Young Musicians supports the vision that 'children and young people should have the opportunity to take part in vocal and instrumental ensembles'.</p>
 <p>charanga® Inspiring music education for over 20 years</p> <ul style="list-style-type: none"> • A world-leading music teaching and learning platform used in 62 countries • A vast library of resources, songs, instrumental courses and creative apps • Quality-assured training, support for blended and home learning, assessment, special needs education, and more 	<p>Charanga. This is the Music scheme that we use in school that has packages that the children can use at home</p>
	<p>Swindon Music Co-operative. Information on Music tutors in Swindon</p>
	<p>Classics for Kids. This website will support your learning all about composers and the orchestra</p>
	<p>BBC Teach – Bring the Noise. A free, fun and simple online music resources that can be used flexibly at home or in the classroom. The website offers interactive and inclusive activities for EYFS and KS1.</p>
	<p>Sing Up. This website has themed playlists of songs to fit every mood – including songs to calm and relax you, songs to get you moving, and empowering songs to lift you up</p>

Out of the Ark. This website is sharing free songs and resources to help teachers and parents build a daily singing routine. Each week they are providing at least 7 songs with activities/challenges to keep everyone singing and learning. Songs are provided with full Words on Screen™ videos together with some activities to go with each song.

Virtual Musical Instruments

Virtual Musical Instruments. Play musical instruments online.

Chrome Music Lab. Experiment with sound with Chrome Music Lab, a hands-on way to explore music and its connections to art, maths, science, movement and more. Use Song Maker to make and share your own songs, build your own rhythms, compare spectrograms (pictures that show the frequencies that make up a sound and how they change over time), play chords and arpeggios, trace sound waves and create melodies. Intuitive and simple to use (and free!)
